MONEY, BONDS AND STOCKS. The Market Quite Active, but Weak and Fev-

erish at a Decline in Prices. NEW YORK, Dec. 3.-Money on call was easy at 21 @3 per cent., last loan at 21, closing offered at 2.

Prime mercantile paper, 4, @ 61 per cent. Sterling exchange quiet but steady at \$4.84}

for sixty-day bills and \$4.881 for demand. The total sales of stocks to-day were 419,525 shares, including Delaware, Lackawanna & Western, 19,180, Erie, 8,100; Lake Shore, 34,-562: Louisville & Nashville, 4,310, Missouri Pasific, 33,395; Northwestern, 33,770, Northern Pasific preferred, 8,149. Oregon Transcontinental, 3,500; Reading, 82,890; Richmond & West Point, 12.065; St. Paul, 53.081; Texas Pacific, 3,454; Union Pacific, 20,630; Western Union, 12,110. The stock market was more active to-day than it has been for many weeks, but it was weak and feverish, and declined throughout most of the day. Notwithstanding the improved outlook in the trunk-line situation, as well as that of the southwestern roads, there were several disquieting rumors of the intention of some of the roads not to sign the agreements, and there was a general bearish tone to the street this morning. London was a seller, and the impression that there would be a disagreement on the question of the differentials was studiously fostered by the "bears," who put out large lines of stocks. There was a heavy decline in Atchison, both here and in Boston, and this was supplemented by rumors of financial troubles in the latter center, although there was nothing definite obtained upon the subject throughout the day. The rumors were persistently circulated, and had a marked influence upon the temper of the speculation. Missouri Pacific, New England, the Grangers, Lake Shore and Western Union were leaders in the decline at first, but Rock island later joined the weak stocks, and the declines established reached 3} per cent., the market, especially in the first hour, having a somewhat panicky appearance, and the business done was very large. Later, however, the remore satisfactory, and the heavy selling was checked, though the rallies were slight and feeble, the principal effect being to restrict the trading to narrower limits. The strong spot in the market was the Northern Pacific group, and Oregon Transcontinental was the only

The opening figures were generally from ? to I per cent. lower than those of Saturday's close and the market became very active immediately, and the weekness very pronounced. Material losses were sustained over the entire list, especially in the first forty-five minutes, when there was a decrease in the animation, and the losses became less. The lowest prices were gradually reached toward I o'clock, and after that there were several rallies and declines, the market moving up and down within comparatively narrow limits. There was little feature to the trading and the market finally closed fairly active and about steady at something better than the lowest prices. The principal losses were in Atchison, 41; New England, 21; Missouri Pacific, 24; Rock Island, 24; Burlington & Quincy. 12; St. Paul, 14; Reading, 14; Northwestern, 11, and Lake Shore, and Richmond & West Point,

stock upon the active list which showed an ad-

vance at the close of business.

Railroad bonds sympathized to a limited extent with the movements in the share list, being rather heavy in the forenoon, but firmer later in the day. There was no decided character to the market, however, and the important changes in quotations are low in number. There was some animation in the Richmond & West Point trust sixes, and they furnished \$191,000 to the day's total of \$1,120,000, but no other special feature was developed. Among those which are lower are Indiana, Bloomington & Western seconds certificates, 4, at 64, and St. Louis, Arkansas & Texas firsts, 2, at 90. Government bonds were dull and steady.

State bonds were dull and steady. The closing quotations were:

CHICAGO, Dec. 3.-Trading in wheat was only moderate to-day. The aggregate business, in fact, was lighter than for a number of days past and mostly local. A weak feeling developed and prices ruled lower. The prospects of a liberal increase in the visible supply caused operators to sell, and the speculative offerings were fair, while the buying was limited. Everything seemed to favor the short side. The opening was 1 a to lower than Saturday's closing, and with some fluctuations declined to more, then railied ic, but again eased off to inside figures. When the increase in the visible supply was announced, the market again ruled weak, although the effect of the report had already been discounted. "Shorts" took advantage of the weakness, however, and covered, and this prevented further shrinkage of prices. At the decline somebody seemed to be absorbing the offerings, and the impression prevailed that others than "shorts" were buying. The market during the last of the session ruled quite weak, and the closing was about 1c lower than on Saturday. There was only a moderate trade in corn, and values were steady, though most of the session a rather weak feeling prevailed. Opening sales were about to under Seturday's closing price, with offerings quite free, especially of December, which was attributed to the larger deliveries on Saturday afternoon; but after this had been placed a steadier feeling prevailed. There appeared to be a very good demand for May around 371c, and this future was quotably firm. In oats trading larger, at a material decline in prices. The weakness in corn had a rather depressing effect and induced holders to sell freely. "Shorts" also became bolder, and sold with considerable freedom. A good many stoporder holdings were also forced out by the hammering by several large traders. Prices decline lic, rallied ic, and closed steady at ic below Saturday's last sales. Mess pork opened rather weak, and sales were made at 71 @ 10c decline on the closing figures of Saturday. Later the demand improved and gradually rallied 30 @32ic, with a good business trans-acted. Toward the close the feeling was easier, and prices receded 25 274, and the market closed steady. Trading was moderately active in lard and prices ruled somewhat irregular. Early a weak feeling prevailed and prices ruled. 021 @.05c lower.

## INDIANAPOLIS MARKETS.

Trade Opened Briskly, and a Good Month's Business Is Among the Probabilities. INDIANAPOLIS, Dec. 3.

In most departments to-day trade opened active, and the outlook for a good month's trade is very encouraging. The effect of the strike has passed off, and goods were shipped yesterday with the usual promptness. In prices there were but few fluctuations. Poultry goes off another 1 cent and butter is weak at quotations. while eggs rule firm and the receipts are stil meager. Receipts of apples in the last day or two have been large and prices rule weak, some choice fruit selling to-day at \$1.75 per barrel. Potatoes rule steady, the best descriptions selling at \$1.50 a barrel. Both sugars and coffees are firm at quotations and the indications are to further advances the present week. Other staple procesies carry a steady tone. The flour market shows no improvement, although on the better grades a steadier tone is reported. The seed market rules quiet at unchanged prices. The wool market is fairly active, and reports from the East all point to higher prices. Trade with the hardware men is falling off somewhat as the winter comes on. The iron market rules firm at unchanged prices, and the same can be said of tinners' supplies. Leather-dealers are having an excellent trade, and prices rule firm at the range of some weeks past. The provision market, as usual on the first of December, is rather flat, while prices rule stead y. The seed market is quiet at unchanged prices:

The attendance on 'Change to-day was fair, and the bidding somewhat spirited on corn for both local and shipping purposes. Oats, as well, are in excellent demand. Wheat attracts no attention, prices being nominal. We quote: No. 2 Mediterranean. \$1.02; No. 3 Mediterranean \$1.01; No. 2 red \$1: No. 3 red is salable at 92 @ 96c; rejected, 73 @85c for poor to good samples, and choice at 85 @ 90c; January delivery, \$1 bid, offered at \$1.043 regular. Not a Blooming Political Future.

St. Louis Globe-Democrat. The industrious efforts of the Democratic organs to prove that there is a future for Grover Cleveland, notwithstanding his present unhappy condition, recall the case of the Georgia urchin who rushed to his mother with the information that his father was in the "soap-barrel up to his ankles." The mother said, like the Democratic editors: "Oh, well, if he's in no deeper than that he can get out." And the boy replied: "Yes. ma, but his head's turned the wrong way."

When Boby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria.

THE PARTY OF THE P GRATEFUL-COMFORTING. EPPS'S COCOA

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil

Service Gazette. Made simply with boiling water or milk. Sold only in half-pound tins, by Grocers, labeled thus: JAMES EPPS & CO., Homocophatic Chemists
